Hi Wasim,

Thank you so much for the confirmation of going LIVE. Meantime I am checking with Google Team and the credentials of Google Analytics to set the events and track the analytics of GTC Microsite.

On behalf of Collabera Marketing team at GTC, I would congratulate and thank you and your team, the way entire website has been developed from back end within 45 days is commendable. [@Vikas Dwivedi](#) has shown the agility and resilience in creating end to end UI/UX from scratch and the way Wasim you have taken entire project swiftly is remarkable. We will work on playing video directly in the window and couple of images later this week. Please confirm on that once they are done.

Happy Independence Day in advance!

Regards,

*Bhavin Adhyaru*

**CAUTION:- External Mail.**

Hi Bhavin,

Great news!

We've successfully launched the GTC site.

Here's the website link: <https://collabera.com/globaltalentcenter/>

Thanks & Regards,
